

Easy. Clean.

New disinfection stations by LMT

Stability for tough applications

Made of high-quality materials, these disinfection stands allow for an unlimited outdoor use.

Less maintenance for the sake of time and money

Due to a capacity from 6 up to 20 liters, you need less time to refill the stations.

This saves time and money.

Customizable design for your location

Optionally we can either coat the stations in individual colours, or we can personalize them with your logo by foiling or laser lettering.

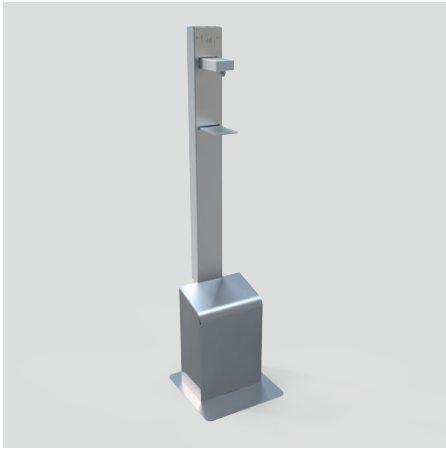

Correct product for the environment

Your packaging waste will reduce due to the use of high-volume containers. Additionally, you are free to choose your disinfectant.

Ecologically compatible, fragrance-free - it's your decision.
